### A NOTE FROM THE EDITOR

This has been a particularly rich season for chess. Not only did we have the Tenn. Open with its associated Scholastic tournament but we also had *Tennessee Tempo* USCL activity, the Fall Classic in Memphis, numerous other scholastic events, and two Senior Championships: the USCF National Senior Championship and the first Tenn. Senior Championship. Because Paul Semmes took the time to decipher and reformat all legible score sheets submitted at the Tenn. Open, we had an unusually high number of games from the event. So many, in fact, that size consideration for the magazine necessitates that this issue focus mainly on the Tenn. Open.

Special thanks goes to Semmes for his work in translating the games as well as to Pete Lahde who funded the purchase of score sheets for the games and additionally provided at-large reporting of Tenn. players' activities abroad. They make my job easy!

Starting with the last issue of the *TCN*, the state magazine will be freely posted on the *TCA* website two or three months after its original publication date. They will be posted in pdf-format, so you'll need to use Adobe Acrobat Reader or similar to view them.

**ERRATA:** The NTWO game given as Leamon vs. Smith (page 12 of the last TCN) was not played by these players but those names were submitted with the game. The players were actually D. Hayes vs. Krievenstov. I'm not sure certain how the original players were wrongly credited with the game, but I am sure it was not Leamon, who states: "I've never started a game with 1. g4 in my life!" A game displaying Mark Leamon's true ability and technique is presented on page 13.

## New World Chess Champion: Topalov Toppled

Russian GM Vladimir Kramnik defeated GM Veselin Topalov 2.5-1.5 in the fourgame tiebreak after a tough twelve-game match, which ended 6-6. Kramnik demonstrated his excellent technique by grinding down his opponent in two very well-played endings (despite being 25-min game/10-s increment per move) in game two and four of the tie breaker.

Because Kramnik won the tie-breaker, there will likely be no more discussions of the rancor that erupted after Topalov suffered his second defeat in the fourth regulation game, after which Topalov's camp accused Kramnik of visiting the bathroom excessively to somehow cheat, resulting in Kramnik not appearing at the fifth game and being forfeited. Since Kramnik won in spite of losing a forfeit point, it is likely that this infamous incident will fade and the new champion can enjoy his unified title.

# Update on the Tennessee Tempo

The Tennessee Tempo's introduction to the U.S. Chess League has been brutal. We've only drawn a single match out of seven (the other matches were losses). Peter Bereolos (on his website <a href="http://www.knology.net/~bereolos/">http://www.knology.net/~bereolos/</a>) describes what is happening to our team with his presentation of our September 29<sup>th</sup> rematch with the Seattle Sluggers:

"It was another frustrating night for the Tennessee Tempo. Wednesday in the US Chess league we had a rematch with our opening night opponents, the Seattle Sluggers. Since they swept us on opening night, Seattle had amassed the best record in the league, while we have headed in the other direction. Our team spirit has remained high and we were ready to reverse the trend. We knew that we had missed a lot of opportunities in that first match as well has having to deal with technical difficulties with our internet connection. We started the same 4 we had in the first match: Burnett, Andrews, myself, and Wheeler while they substituted FM Mikhailuk on Board 2."

"It seemed that karma was on our side early when Seattle's internet connection dropped almost as soon as play began. After they finally got back up and running they were all penalized 5 minutes and we ran up a significant time advantage on every board (unknown to us, they were having to relay all their moves through a single computer, much like we had to do with the telephone on opening night). ... Todd's game looked like a total mess with an extra piece versus a slew of pawns. Once again the pawns ended up being stronger. Still, down 0.5-1.5 things didn't look too bad for us. Jerry had an extra pawn and Ron's position looked tenable although slightly worse. Both of their opponents were short on time. Things began to go off the track a bit when Jerry allowed a dangerous piece sacrifice instead of taking a clean two pieces for a rook. He used up his time edge, but his opponent misplayed the attack and it looked like Jerry just needed to unwind his position. Meanwhile, GM Serper gave up all of his advantage versus Ron, nearly losing on time and swapping into a drawn rook ending, which he then proceeded to misplay and actually give Black some winning chances. Then, in the span of a few seconds. disaster struck. Jerry locked up and couldn't produce a move and lost on time! Ron offered an exchange of rooks that gave Serper a winning king and pawn ending. From winning or at worst drawing the match, suddenly we had lost by 3 points for the second straight week."

That, in a nutshell, is what is happening to the Tempo. We are not being outplayed by higher-rated opponents but we are making simple, correctable mistakes. Hence it is likely that the Tempo will start churning out the wins in the near future. In the meanwhile, following are two worthy wins that demonstrate our potential. If you

## Tennessee Open Championship

The 60<sup>th</sup> Annual Tennessee Open was held from September 1–3 at the Gaylord Opryland Hotel in Nashville and featured a \$5,000 guaranteed prize fund. The event had four sections: Open, Amateur (Under 1600), Novice (Under 1200), and a one-day Game/60 Scholastic event. The event drew players from eight states, including the distant states of Iowa and Arizona. Forty-two players competed for the championship, 33 players were in the Amateur, and 13 players battled it out in the Novice. Probably the main reason that the Novice was relatively small was that the Scholastic Tournament (divided into four grade levels) had over 110 players. So either the parents or the scholastic players favored the one-day, 60-min. format.

The Tennessee Champion for 2006 is Todd Andrews who took the title with four wins and one draw. (Ron Burnett and Peter Bercolos came in second place with 4.0 points.) Tre Smith of Gallatin, TN took the Amateur title with an undefeated 4.5 score. (Vikas Kumar of Nashville took clear second with 4.0 points.) The Novice was won by Randall Vaughn of Nashville with 4.5 points, a clear point ahead of the field that saw four others bunched in second—fifth place with 3.5 points.

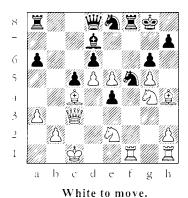

Whereas the main sections of the Tenn. Open were won by 4.5 points, all winners of the Scholastic Event had an undefeated 4.0 score. The High School Section of the Scholastic event was won by Chris Snow of Clarkrange; the Jr. High Section was won by David Fan of Nashville; the Elementary Section was won by Charles Blue of Knoxville; and the Primary Section was won by Kasyap Cherukuri of Cordova.

Peter Lahde graciously donated money to the event to purchase score sheets so that we could obtain copies of the games. Hence we have more games to present in this issue than ever before, some of which are annotated. There is even a quiz based on some of the tactical positions that developed during the course of play. To give you the flavor of the event, I'll share thoughts of the Champion during his first round battle with Evan Mah. (Todd published this game on the USCF's website.)

[Annotator "Todd Andrews"]

1. d4 Nf6 2. c4 e6 3. Nc3 Bb4 4. Qc2 0-0 5. a3 Bxc3+ 6. Qxc3 d6 Not as popular as b7-b6, but I figured it could transpose. 7. Bg5 Nc6 8. f3 e5 9. d5 Ne7 9...Nd5 (These tactical ideas never seem to work for Black.) 10. e4 I saw no advantage in doubling the f-pawn and giving up my bishop pair. Ne8 11. g4!? g6 12. 0-0-0 f6 13. Bh4?! 13. Be3 makes a lot more sense and my bishop does not end up getting in the way of operations on the king-side. I was hooked on tactical ideas where I play f3-f4

and for some reason I felt my bishop wanted to remain on the h4-d8 diagonal with the Black queen. c5 14. Bd3 Bd7 15. Ne2 a6 16. Rdf1 Announcing my plan of f2-f4. The only way for Black to prevent this is to play ...g6-g5 and I felt like the kingside breakthrough was only a matter of time with plans such as h2-h4, Rf2-h2 and Ng3-f5 or h5. b5 17 g5 f5 18. f4!? Whether or not this is the best way for White to play in the search for truth in chess is questionable, but is definitely the best way to play to mix it up on and confuse the up-and-coming teenager. bxc4?! 18...fxe4 19. Bxe4 Bg4 20. Qe3 Ng7 puts up tougher resistance. 19. Bxc4 fxe4 20. fxe5 Nf5

21. e6 Bb5 22. Bxb5 The idea 22. Ng3! is even stronger here than on the next move. Bxc4 22. Nxh4?? 23. Rxf8+ Kxf8 24. Qh8+ Ke7 25. Qxh7+ or 23. Nxf5 gxf5 24. Qxc4 axb5 23. Ng3! Ra4 23....b4! is of course the best move creating complications for me to deal with 24. Nxf5 Rxf5 (24...bxc3 25. Nh6+ Kg7 26. Rxf8 and White does not escape the mating net without losing material.) 25. Qe3 is unclear. 24. Nxf5 Rxf5 24...gxf5 25. Qg3 or h3 is very dangerous for Black. 25. Rxf5 Rc4 26. Qxc4 bxc4 27. Rf7 c3 28. Rhf1 1-0

After "passing" through Burnett with a strong draw, Todd faced Expert Bill Hall in the final game to determine the champion:

[Event "Open Section"]

1. d4 b6 2. e4 Bb7 3. Bd3 e6 4. Nf3 Nf6 5. Qe2 d5 6. e5 Nfd7 7. h4 Be7 8. Nbd2 c5 9. c3 Nc6 In this hybrid of a French Defense, White has a stronger kingside attack than he would usually be able to achieve in most French Defense setups. Still, Black has good chances and the game is now even. 10. a3 Qc7 11. h5 h6 12. b4 c4 Black should have maintained his ground on the queenside and simply castled kingside. But perhaps he is considering queenside castling? 13. Bb1 Nf8?! It is uncertain what this accomplishes, but b5 would have been better or even a5 as later played. 14. Nf1 a5 15. b5 Nd8? Na7 followed by castling to a safe queenside would have been better. The knights would be able to coordinate later. Now White has a huge space advantage and can start working on Black's kingside weaknesses. 16. a4 f6 Ah! Now we see what the knight was doing on the 13th move. However, Bg6— is strong. 17. Bf4 f5 Black should have followed up with the consistent Nf7.

18. Rg1 g5 A good move, allowing Black to rid himself of some of his kingside weaknesses--though his h-pawn now receives all the attention. 19. hxg6 Nxg6 20. Bd2 h5 21. Rh1 Nf7 22. g3 O-O-O 23. Ne3 Rdg8 24. Ng2 Qd8 The rook on g8 makes possible the immediate h4: 24... h4!? 25. gxh4 Bxh4 26. Ngxh4 Nxh4 27. Nxh4 Rxh4 28. Rxh4 Rg1+ (Black has no weaknesses other than being cramped but may have to deal with the rooks later.) 25. Bc2 Ng5? 26. Nxg5 Bxg5 27. Rxh5 Be7 28. O-O-O Qe8 29. Rdh1 Rxh5 30. Rxh5 Qf7 31. Kb1 Kd8 32. Rh3 Bc8 33. Qd1 Bd7 34. Qh1 Be8 35. Ne3 Bg5 This is a blunder but it is difficult to come up with suggestions even now. Maybe Bf8 could help stave off the inevitable but Black is simply without counterplay. 36. Rh7 Rg7 37. Rxg7 Qxg7 38. Nxf5 1-0

[Event "Open Section (4)"]
[White "Hall, Bill (2106)"]
[Black "Arnold, Justin (1933)"]

1. Nf3 c5 2. c4 Nc6 3. Nc3 g6 4. g3 Bg7 5. Bg2 d6 6. O-O e5 7. d3 Nge7 Black employs a very flexible setup against the English, a reverse Botvinnik. 8. Nd5 O-O 9. a3 Nxd5 This blunts the g2-bishop's range. 10. cxd5 Ne7 11. e4 a5 12. Rb1 Bd7 b5 is interesting, setting up a possible outside passer or preparing b4 to kill queenside activity. 13. Be3 a4 14. Nd2 Bb5 15. Qe2 f5 Finally! 16. Bg5?! Better was f4. h6 17. Bxe7 Qxe7=/- 18. Nc4 f4 19. b4! axb3 20. Rxb3 Bxc4 21. dxc4 Qf7 Qd7! 22. Rfb1+/= Ra7 23. Bh3 Kh7 24. Be6 Qe7 25. f3 Rfa8 26. 1. e4 e6 2. d4 d5 3. Nc3 dxe4 4. Nxe4 Bd7 Black should have continued with the simple Nf6. And if he is going to spend two moves to develop his bishop, then it is better placed on b7 where it won't be harassed by pawns or knights. 5. Nf3 Bc6 6. Bd3 Nd7 7. c3 Ngf6 8. Nxf6+ Nxf6 9.

Bxg2 18. Kxg2 Qxd4 19. Re3 Ng4 20. Rf3
Ne5 16. Ba3 Qb6 17. Bc5! The in-between move—not just settling to win the exchange with Be7! Qa5 18. Bb4 Qb6 19. a5 1-0

Wu-Hunley. White's 17th move.

1. e4 e5 2. Nf3 Nc6 3. Bc4 Bc5 4. d3 Nf6 5. Bg5 O-O 6. Nc3 Bb4 If Black is so worried of the pinning attack on her knight at f6 that she is going to violate the opening principle of not moving the same piece twice while other pieces are undeveloped, then the bishop should be returned to e7. Better, though, is the simple h6 followed by d6. 7. Qd2 Instead of simply castling and being up an extra tempo, White unnecessarily defends against getting doubled pawns. h6 8. [Event "Novice Section (4)"] [White "Manners, Roy (1107)"] [Black "Vaughn, Randall (1006)"]

[Event "Amateur Section (5)] [White "Mark Leamon (1455)"] [Black "Joe Tate (1259)"]

Instead of trying to win more material, Black satisfies himself with what he has and steers the game toward an ending. Then he plays to restrict his opponent's opportunities while increasing his own scope.

1. Nf3 d5 2, d4 c6 3. Bf4 g6 4, e3 Nf6 5, h3 Bg7 6, c4 O-O 7, Nc3 Re8? This wastes a valuable tempo. It is unlikely that Black will be able to engineer e5 so he should simply continue with his development. 8. Bd3 Bd7 Another inaccuracy. Since the only other decent square for this bishop is f5, it is better placed on c8 because it defends the b-pawn. So Nbd7 would be better or even Be6 or the challenging Bf5. For instance, 8... Be6 9. Ng5 Bf5 10. Bxf5 gxf5 11. Qb3 dxc4 12. Qxb7 (12. Qxc4 e6) 12... Qb6 13. Qxa8 Na6 14. Qxe8- Nxe8. 9. O-O Qc8? 10. cxd5 cxd5 11. Rc1 Qb3 is also strong. Nc6 12. [White "Pylant, Gary-1855"]
[Black "Torchia, Robert-1919"]
[Annotator "Leonard Dickerson"]

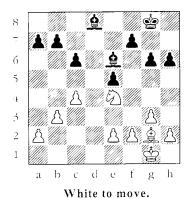

The Fall Classic, a 4-round 2-h game Swiss, was held in Memphis from Sept. 8-29. Contending for first place, Pylant played this Torre Attack in the fourth and final game of the Memphis Fall Classic. At the start of this game, he had 2.5 points and his opponent had 2.0 points.

1. d4 Nf6 2. Nf3 g6 3. Bg5 Ne4 4. Bf4 Bg7 5. Nbd2 d5 6. e3 Nd7 7. Be2 Better is either c4 or Bd3. Ndf6 8, h3 This unnecessary move was probably played to preserve the bishop from attack by Nh5. If so, it was not justified because either Be5 or Nxe would have accomplished the same thing. ... c6 9. c3 Qb6 10. Qc1 Qb3 was a little better. Now the game is even. ... Bd7 11. Ne5 g5?! 12. Bh2 Nxd2 13. Nxd7 Nxd7 14. Qxd2 Nf6 15. Bd3 h6 16. Be5 White has got a plus but it is hard to make progress. Black could now play Nh5 but decides to just wait and see what White does. ... e6 17. Qe2 Playing a4 could gain queenside space but would probably give up queenside castling rights. ... Ke7?! Fritz9 screams that White now has a 2.0 advantage but does not offer a convincing kill. This is similar to the 9th game of the Topalov-Kramnik match where Topalov had a huge computer-advantage but struggled to make progress against Kramnik's defense (which did eventually fail--though not because of White's brilliance). 18. O-O-O Ne8 Now White can continue strongly with h4 to take advantage of the disconnected rooks and weak pawns or e4 to exploit the Black kings position and increase his white-square bishop's range. 19. Bg3?! Nd6 20. Bxd6? Well, there goes part of White's advantage. Better was f3. Black can now eastle by hand but still has weak kingside pawns. ... Kxd6 21. e4 Rae8 This rook would have been better placed on f8 to help defend the kingside weaknesses. 22. Rhe1 Kd7? 23. exd5 cxd5 Capturing with the e-pawn could offer Black some defensive chances for a draw because of the resulting opposite colored bishop endgame: 23... exd5 24. Qg4+ Kd8 25. The Memphis Pumpkin Madness 2 was a 3-round event with a 29-min. time control. This final game of the tournament saw each player (co-leaders at the time) having chances to realize an advantage, even though the early swap of queens led to a drawish middlegame.

1. c4 d6 2. Nf3 Nf6 3. Nc3 g6 4. g3 Bg7 5. Bg2 Nbd7 6. d4 O-O 7. O-O e5 8. dxe5 Nxe5 9. Nxe5 dxe5 10. Bg5 Qxd1 11. Rfxd1 c6 12. Rd6 c5 has also been played. Be6 13. Rad1 h6 14. Bxf6 Bxf6 15. b3 Also possible is Ne4, which could give White some play against the Black pawns and, indeed, may be the way to go if one was playing for a win: 15. Ne4!? Be7 16. Rxe6 fxe6 17. Rd7 Rfe8 18. Rxb7 Rab8! (Activating the rook and not waiting around for moves such as Bh3 to show that White actually has something tangible.) 19. Rxa7 Rxb2 20. Bh3 Rxe2 21. Bxe6-Kf8 22. Nf6 Rd8 23. 19. Nc5? 19. Nd6 b5 20. Bxc6 bxc4 21. Nxc4 and even though the position is drawish, White may have enough to play for a the win in a practical situation. (21. bxc4 Be7 22. c5 Bxa2 +/=) 19... # 2006 National Senior Open

The USCF held its' 26<sup>th</sup> annual U.S. Senior Chess Championship at the Gaylord Opryland hotel in Nashville, Tenn. Aug. 27-Sept. 1. Forty-three older warriors (50 and beyond) battled through six rounds (one game per day). **Texas' Joseph Mark Bradford** emerged as the **2006 U.S. Senior Open Champion** by scoring 5.5 points. Participants from Tenn. included Henry Robinson, James Beardsley, Jerry Nash, Gary Gillespie, Roy Manners, Michael White, and William Clement. **James Beardsley won the Under 1600 Section** with 3.5 points.

This game of Evan's (submitted by Lahde) was originally published in the Penn. *Pennswoodpusher* magazine and annotated by Alex Dunne.
